

バングラデシュ人民共和国 グラミンカレドニア看護大学教員研修  
 People's Republic of Bangladesh: Grameen Caledonian College of Nursing:  
 Visiting Faculty Study Program at the National College of Nursing, Japan

期間：平成 24 年 2 月 16 日（木）～3 月 2 日（金）

Dates: Thursday, February 16th through  
 Friday, March 2nd, 2012

訪問者：ナズムル・フダ氏（ディレクター）  
 ポリー・イマキュラータ・コスタ氏（教員）

Visitors: Dr. Nazmul Huda, Director;  
 Ms. Poly Immaculata Costa, Lecturer

国立看護大学校 広報・国際交流委員会  
 National College of Nursing, Japan:  
 Committee for Public and International Affairs

本学 National College of Nursing, Japan (NCNJ) は、バングラデシュ人民共和国のグラミン銀行グループと国立国際医療研究センターとの共同事業の一環として、グラミンカレドニア看護大学 Grameen Caledonian College of Nursing (GCCN) に対する協力連携を実施しています。昨年度、本学の教員 2 名が GCCN に派遣され、教員に対する授業計画案の作成、授業評価に関するワークショップなどの技術支援を行いました。今回、GCCN 教員を大学校に招聘し、技術支援のフォローアップ研修を行い、看護学教育に対する学びを深め、GCCN における教育への示唆を得ることを目的に研修を行いました。

看護学部の基礎看護学・成人看護学・母性看護学・小児看護学における講義・演習・実習についての講義、成人看護学実習の見学、病院見学などを行いました。また、研究課程部（修士課程）の教育・研究、臨床看護研究推進センターや研修部における看護師の継続教育・研究支援などについても学びました。

以上の学びをもとに、GCCN における看護教育への示唆についても有意義な話し合いが行われました。

Under the partnership between the Grameen Bank and the National Center for Global Health and Medicine, the Grameen Caledonian College of Nursing (GCCN) and the National College of Nursing-Japan (NCNJ) have been collaborating with each other. Last year, two faculty members visited the GCCN to share ideas about developing and evaluating class teaching plans in a workshop format. This year, two faculty members were invited to the NCNJ to follow-up on this partnership project.

The visiting faculty from the GCCN had opportunities to gain better understanding about undergraduate nursing education in several specialty areas (e.g., fundamental nursing, adult health nursing, maternal health nursing, child health nursing), in class and clinical practicum formats. Also, they learned about education and research programs in the graduate school of nursing, and continuing education programs for nurses at the Research Center in Clinical Nursing and the Education Center for Nursing Development.

We discussed implications and exchanged ideas about our nursing education in the future.
